FALL OF KORITZA ACKNOWLEDGED IN ROME

DRIVE LAUNCHED TO FORCE LAST INVADING ITALIANS FROM GREECE

BULLETINS

Rome, Nov. 22.—(P)—The Italian high command hastened reinforcements to the Albanian front today for an attempt to regain Koritza, after abandoning it to the advancing Greek army.

Belgrade, Yugoslavia, Nov. 22.—(P)—One Italian battalion, endangered by the onrushing Greek army, was said by reports from the front today to have crossed the Albanian frontier into Yugoslavia near Stenje. It was estimated unofficially that 800 soldiers in the battalion were disarmed and interned. Reporting the capture of Koritza, Italian base city in Albania, Greeks here said their army marched into the fallen city with a band playing.

Greek-Italian: "Not a single Italian left on Greek soil by nightfall" is jubilant Greek prediction as high command announces capture of Koritza, key base city in Albania for Italian invasion army; Mussolini's high command admits withdrawal from Koritza of two divisions, about 30,000 troops, after 11 days of bitter fighting, in which losses were "considerable" but Greek losses "perhaps heavier."

Diplomacy: Rumania's pro-Nazi dictator, General Ion Antonescu, arrives in Berlin for talks with Adolf Hitler which are expected to result in that nation joining the "European bloc against Britain." Bulgaria and Slovakia expected to be next Nazi joiners. The air battle: Bau weather over the English Channel gives England quietest night of month and R. A. F. also calls off bombing of Germany. Elsewhere: Dover—German guns on French coast shelled chalk cliffs this morning, but no casualties were reported. Algeiras—Spanish sources hear French battleship has entered Gibraltar and surrendered to British.

FASCIST ARMY SAID TO BE MAKING PELL MELL RETREAT TO THE SOUTH

Athens, Nov. 22.—(P)—The capture of Koritza, key base in southern Albania from which Italian columns drove into Greece 25 days ago, was announced triumphantly today by the Greek government. It came as the climax of bitter warfare in the rugged mountains of the Greek-Albanian frontier in which hard-fighting Greek troops first checked and then hurled back the tide of invasion. "Our heroic troops after hard fighting entered Koritza today triumphantly," said a communique. "The advance of our troops continues everywhere."

IMPORTANT BASE CAPTURED AFTER ELEVEN DAYS OF BITTER FIGHTING

Rome, Nov. 22.—(P)—Italy acknowledged today the loss of Koritza, base in southern Albania from which the Italian army launched its invasion of Greece 25 days ago. Eleven days of bitter fighting in which Italian losses were "considerable" and those of the Greeks perhaps even heavier preceded the abandonment of the city, 10 miles inside Albania, the High Command announced. Koritza, a city of only 22,787 population, is the third largest in Albania, and was the base for the center and left flank of the three prongs the Italians attempted to drive into Greece. (It was from Koritza that Italian forces three and a half weeks ago began driving toward the Greek city of Phloina, on a line which indicated a push toward the Aegean sea port of Salonika. Both at Koritza and at Arginacastro, another Italian base, the Greeks declare a threat, by their advance forces, the Fascists were said to have accumulated tremendous stores of war supplies. Koritza is at the junction of the only two military roads in eastern Albania. (Turn to Page Thirteen)

NEW AERIAL STROKES PLANNED BY BRITAIN WITH AID OF U. S. PLANES

London, Nov. 22.—Embattled Britain, heartened by her king's report of increasing aid from the United States, wapped new aerial strikes against Germany and Italy today. King George VI in opening a new session of parliament yesterday declared munitions and supplies from the United States were arriving in "ever increasing volume" and the Royal Air Force felt little doubt that 26 powerful bombers originally ordered by the U. S. army and being made available for British purchase would be in the way of new forays against the Axis. RAF officers said the big four-motored craft also might be used for the nightly bombing "ferry service" to Berlin and added that all the signs point to an early opening of widespread air war in Italy, with the comment that the American-made ships "are the American-made ships."

"On to Rome" Shout Heard From Jubilant Crowds That Parade the Streets of Athens

Athens, Greece, Nov. 22.—(P)—Thousands of jubilant Greeks, elated at the fall of Koritza, paraded through the streets of Athens today, shouting: "On to Rome." As I write this, I can hear them beneath my hotel window singing patriotic songs. Some enthusiastic men are carrying British soldiers through the streets on their shoulders. Reports from the captured Albanian city say that Greek flags hidden in the cellars of Koritza for years were brought out today and hoisted on buildings everywhere to welcome the victorious Hellenic warriors who marched in after the retreating Fascist army. Special groups of Greek soldiers were quickly set to work counting and setting the great booty left behind by the Italians, who had accumulated heavy stores in Koritza to feed and supply their army in its invasion of Greece, army advisers said. It was disclosed here, meanwhile, that gendarmes already were en route to Koritza to take charge of the city. A special postage stamp with the word "Koritza" will be issued to commemorate the victory.

Traffic Fatalities Held to Sixty-one As Thirty-Two States Observe Thanksgiving

Sixteen states could still look forward to Thanksgiving today, but families in the rest of the nation nibbled at left-over turkey and went back to work. The festival passed quietly, for the most part, in the 32 states which adhered to President Roosevelt's proclamation setting the holiday a week in advance of the last-Thursday-in-November date which was observed generally until last year. Traffic fatalities were held to 61, compared with the 90 highway deaths which the National Safety Council said normally might be expected on an average November Thursday. The president and Mrs. Roosevelt attended church at Hyde Park, N. Y., and heard the Reverend Frank R. Wilson declare that regardless of the peace and security enjoyed by the United States, "we cannot just sit back and gloat on that. We have an opportunity, a work to do. We must pass these blessings on to others." Later, Mr. and Mrs. Roosevelt ate turkey with the president's mother, Mrs. Sara Delano Roosevelt. Football fare for the day was lean, but sizeable crowds watched Fordham humble Arkansas, 27 to 7, and Missouri down Kansas 45 to 20 in one of the Midwest's oldest rivalries. Thanksgiving will be celebrated officially next Thursday in all the New England States, and in Tennessee, Florida, North Carolina, Arkansas, Oklahoma, Kansas, Iowa, South Dakota, Pennsylvania and Nevada. Besides the 61 traffic fatalities, 30 other persons met violent death by guns, in fires, or through other accidents. The toll by states: California 8, Georgia 2, Illinois 4, Indiana 4, Iowa 1, Kansas 2, Kentucky 2, Maryland 4, Michigan 5, Minnesota 4, Missouri 1, Montana 4, Nebraska 1, New Jersey 6, New York 1, Ohio 12, Oregon 4, Pennsylvania 5, South Carolina 4, Tennessee 4, Texas 1, Utah 1, Washington 9, Wisconsin 2.

Dies to Follow Up German "White Paper" With Reports on Italians and Japanese

Evidence of Closely-Integrated Scheme of Nazi Espionage, Propaganda And Planning in This Country Set Forth in Documents Released Thursday

INVESTIGATORS ACTIVE

Washington, Nov. 22.—(P)—The Dies committee has promised to follow up its German "white paper" with companion reports devoted to alleged Italian and Japanese activities in the United States. The material set forth in its "white paper" on German activities, the committee charged, was evidence of a closely-integrated scheme of Nazi espionage, propaganda and planning in this country. Informal sources said today that an Italian "white paper," similar to the 500-page document released yesterday on German activities, was being prepared by the committee and would be transmitted to congress within a few weeks. Committee investigators, meanwhile, were reported actively pursuing their inquiry into the operations of persons the committee believes to be identified with the Japanese government, but the form of the report on this material has not been determined. Chairman Dies (D-Tex.) of the committee said in St. Louis that the German report was "unique in American history" and that any "Nazi effectiveness would be destroyed" by its contents. Aides of Dies said that he had decided to take charge personally of inquiries now under way in many cities in the hope that activities of any agents unfriendly to the United States might be discredited. Dies indicated that the "white paper" would be followed by a "black paper" (Turn to Page Six)

AID TO BRITAIN AT PEAK CHIEF EXECUTIVE SAYS

Hyde Park, N. Y., Nov. 22.—(P)—President Roosevelt indicated at a press conference today that, under present conditions, American aid to Britain is near its peak. He said that everything possible is being done at the present time. The president disclosed that he had asked General John J. Pershing to become American ambassador to France but that Pershing had declined with deep regret on the advice of his physicians. The 80-year-old commander of the American armies in France in the last World War has been in poor health for several years. Mr. Roosevelt said he had not yet accepted the resignation of William C. Bullitt, now ambassador to France. The resignation was submitted on Nov. 7. Two weeks ago Mr. Roosevelt had laid down a rule of thumb under which he said Britain and the United States would share 50-50 in the production of planes, guns and other war equipment. Asked today whether, in view of the recent acceleration of German bombings of English communities, that rule could be altered to give more help to the British, the president said the question was altogether too general. If some one could point out specifically how it could be done, he said, it might be a different story. But suggestions on that point, he said, must come from other people.

CHRISTMAS ARMISTICE

London, Nov. 22.—(P)—T. E. Naylor, labor member of parliament, announced today that he would ask Prime Minister Chamberlain to "invoke the good offices of the Vatican or some neutral state" to seek a 48-hour Christmas armistice. Until Dubinsky threw his firecrackers under the rocking chair leaders had predicted a quiet two day meeting reflecting the pacific nature of the AFL as publicly contrasted by President William Green with the turbulent CIO convention in Atlantic City. Dubinsky charged the executive council, the guiding body of the AFL, had repudiated pledges made to him as part of the conditions under which he returned to the organization. He charged the AFL while talking of making peace with the CIO, was actually creating a "war chest."

SIX VICE PRESIDENTS ALSO TO BE SELECTED

Hyde Park, N. Y., Nov. 22.—(P)—President Roosevelt said today he knew of no developments on the labor peace front other than those he had read in the papers. New Orleans, Nov. 22.—(P)—William Green, president of the American Federation of Labor in convention here, said he "hoped" the selection of Philip Murray as president of the CIO today at Atlantic City would aid the cause of peace between the AFL and CIO. Atlantic City, N. J., Nov. 22.—(P)—The Congress of Industrial Organizations chose Philip Murray as its president by acclamation today, besting on his the mantle of leadership worn for the past five years by John L. Lewis. In his acceptance speech the new CIO president criticized what he called "governmental pressure for a shotgun agreement" with the American Federation of Labor. He called on the cheering delegates for united action and an end to "bickering" within the organization. Obviously referring to appeal by President Roosevelt for an end to the labor war through peace conferences between CIO and AFL leaders, Murray said: "I offer a mild protest against the use of governmental pressure to force a shotgun agreement with the American Federation of Labor."

ATTACK IS CLAIMED

New Orleans, Nov. 22.—(P)—The dream of a quiet business session that had enveloped the American Federation of Labor convention, has been broken by Dazil Dubinsky, unperurbed today after three fist fights and bitter charges he made against gray-haired AFL chiefs. Police-guarded and nursing a bruised lip, Dubinsky, president of the International Ladies' Garment Workers, announced he had demanded of an AFL vice president: "I was out. Why the — did you want me back? You had peace before?" Dubinsky returned to the AFL fold only last June after deserting the Congress of Industrial Organizations which he helped found following his departure from the AFL. Until Dubinsky threw his firecrackers under the rocking chair leaders had predicted a quiet two day meeting reflecting the pacific nature of the AFL as publicly contrasted by President William Green with the turbulent CIO convention in Atlantic City. Dubinsky charged the executive council, the guiding body of the AFL, had repudiated pledges made to him as part of the conditions under which he returned to the organization. He charged the AFL while talking of making peace with the CIO, was actually creating a "war chest."

ABSENTEE LIST CAUSES WORRY IN WASHINGTON

Washington, Nov. 22.—(P)—Less than half the senate showed up for work today and the resulting recess deferred action on the controversial Logan-Waller bill at least until Monday. Two roll calls showed only 45 senators present; forty-nine members must be present to take final action on any legislation.

ROOF IS DANGEROUS

Washington, Nov. 22.—(P)—The house and senate both voted today to abandon their usual quarters temporarily because of fears that a 120-ton roof might fall in on the members assembling Monday. The senate will meet in the old Supreme Court room of the capitol. The house will use a caucus room across the street. Proponents of the Logan-Waller bill, which is designed to facilitate appeal from government agencies, had said previously that they feared the lack of a quorum might prevent action on the measure, which administration leaders have opposed. Senator Hatch (D-NM) said he was confident his motion to take up the bill would be approved, but he feared that so many senators (Turn to Page Six)

Ambassadorship For Pershing Reported

Washington, Nov. 22.—(P)—General John J. Pershing, the Washington Post said today, will be the next United States ambassador to France. The newspaper in a copyrighted article said formal announcement of the Pershing appointment was expected within the next few days. The White House was silent on the report. William C. Bullitt, the present ambassador, submitted his resignation to Mr. Roosevelt Nov. 1 but Bullitt said the president refused to accept it. Pershing, the 80-year-old general of the armies of the United States, retired many years ago from active military duty and has been leading a quiet life ever since a grave illness in 1938.

ALUMINUM MILL IS CRIPPLED BY LABOR TROUBLE

Strike is Called at New Kensington Plant Employing 7,500 After Controversy Over Employee Who Refused to Pay Dues into Union

AFFECTS DEFENSE PLAN

New Kensington, Nov. 22.—(P)—A strike of CIO unionists, protesting the company's refusal to discharge a mill worker who allegedly threatened a union official, shut down operations at the main plant of the Aluminum Company of America here today. The corporation, the nation's sole producer of aluminum, furnishes metal used widely for airplanes. The plant which employs 7,500, has been operating 24 hours a day on defense orders. William Hunker, spokesman for Local No. 2 of the Aluminum Workers Union, which called the strike, said both the union and the company "hated to see the defense program treated this way." The company said the strike was "not justified." Among the defense contracts on which the plant was working was a \$1,200,000 order for 25,000 sets of field kitchens for the U. S. army. Hunker, referring to the reason for the walkout, said the company refused to discharge a millworker who brandished a knife and threatened Tom Davis, chairman of the local's sheet metal committee, when Davis demanded that he pay up back dues. The man also threatened the lives of Davis' wife and young daughter, Hunker said. The CIO spokesman said more than 1,000 members of the union voted to strike early today after the company declined to dismiss the employee. Through the night and morning company and union heads conferred in an attempt to reach an agreement. (Turn to Page Thirteen)

FIGHTERS WEIGH IN

New York, Nov. 22.—(P)—Pete Lello of Chicago will have a slight weight advantage when he attempts to lift the lightweight boxing crown from Lew Jenkins in Madison Square Garden tonight. Lello tipped the scales at 137½ pounds today and Jenkins at 131½.

SHIP SURRENDER NOT CONFIRMED

Algeiras, Spain, Nov. 22.—(P)—Naval sources speculated today on the identity of a French battleship which was reported to have surrendered to the British at Gibraltar last night. Reports reaching here said the vessel was one of the 22,150-ton Paris class, of which France has two at the outbreak of the war, the Paris and the Courbet. (London naval sources said they had no information on the reported surrender. A possibility existed that the warship either had been incorrectly identified—if a surrender had taken place, or that no surrender was involved—the British or their (Turn to Page Six)

Dual Situation Involving Future of Both Major Organizations Floods State Capital With Politicians Today

GUFFEY TO ENTERTAIN

Harrisburg, Nov. 22.—(P)—Republican leaders of Pennsylvania moved in on Governor James today with a new demand for more jobs on Capitol Hill as Democratic legislators gathered to discuss organization of the 1941 legislature. The dual situation flooded the capitol with politicians. Republicans called on Governor James to voice a new call for patronage, and out of a series of conferences grew a survey showing there were several hundred Democratic still holding fairly important jobs in the state capitol. "I'm here for jobs," said J. H. Cooke, Republican leader of Philadelphia, as he left the governor's office, in company with G. Mason Owell, former state senator. Other party chieftains voiced about the same thought. James reduced the state payroll as a keynote move in what he called his "reconomy" administration when he took office, and this slash never has been taken up. Only yesterday, the governor still insisted he was for "an economy administration." There was no indication he had reached a decision on the repeated job demands. Meanwhile, Democrats gathered to discuss their candidates for speaker and majority floor leader for the 1941 session. They won control of the house, 126 to 82, in the Nov. 5 elections, though the Republicans retained a 32-18 hold on the senate. U. S. Senator Joseph P. Guffey, reelected for a six-year term, will be host to the legislators at a dinner tonight. One of his associates said the senator had "no particular choice" for the two top posts. Outstanding in the discussion was Leo A. Achtermann, a veteran of the legislature. He is avowedly a candidate for speaker. Some Democrats have said he would be more valuable as floor leader. Also mentioned for speaker are Elmer J. Kilroy of Philadelphia, Anthony J. Gerard of Allegheny and Albert O'Connor of Cambria. It has been significant of the discussions that no Democratic representatives other than Achtermann have been mentioned for floor (Turn to Page Thirteen)

PENN'A UNIVERSITY STUDENT SENTENCED

Philadelphia, Nov. 22.—(P)—One of three University of Pennsylvania students arrested last night during a "rowdathon" for tomorrow's game with Cornell was sentenced today to 30 days in jail by Magistrate Elias Myers, who commented: "You'll learn more in 30 days where you are going than in four years in college." The magistrate, however, permitted the student to escape the prison sentence by paying a \$25 fine. Two others were given 10 day sentences, or \$10 fines. Prior to the conference with Hitler, the Rumanians were received briefly by German Foreign Minister Joachim von Ribbentrop, who accompanied them to see the Nazi chieftain. The Rumanians will leave Berlin Sunday morning; President Joseph Tiso and Premier Bela Tuka of Slovakia are expected in Berlin the same day. Bulgarian statesmen probably will confer with German diplomats in some German city Monday or Tuesday. King Boris of Bulgaria saw Hitler in the recent cycle of diplomatic visits to Germany from Hungary, Soviet Russia, Italy and Spain. If Rumania, Bulgaria and Slovakia should sign up in the military-economic alliance against any country which might join Britain or China in war, only three Balkan nations would remain outside the fold. They are Greece, already at war with Hitler, Turkey, a friend of Britain but, in the German view, still undecided where finally to (Turn to Page Thirteen)

NAZI DEMANDS ON TURKEY MAY BE KNOWN SOON

Istanbul, Nov. 22.—(P)—Franz von Papen, German ambassador to Turkey, arrived here by plane this afternoon and was believed by observers to be bringing to the Turkish government a German demand for Turkish participation in the Axis "new order" for Europe. Returning from conferences in Germany and Bulgaria, von Papen was expected to proceed by train to Ankara, the Turkish capital, tonight for other important meetings. Observers believed the proposals he carried from Berlin might include (Turn to Page Six)

Post Office at Santa Claus, Indiana, Is Anticipating a Wartime Boom of Its Own

Santa Claus, Ind., Nov. 22.—(P)—The post office of this little southern Indiana town, namesake of the Christmas saint, is looking forward to a wartime boom of its own. Postmaster Oscar L. Philipps said today he already had received from American war relief organizations many pieces of holiday mail to be stamped with the Santa Claus postmark. Some of the cards and letters, he reported, were destined for French, British and Polish soldiers in German prison camps; others solicited funds for relief of refugees. Philipps is so optimistic over the prospect for a big season that he has taken over half of Martin's general store to double his floor space. "I don't think," he remarked, "we'll be disturbed by the incorporation of North Pole, Minn., as a rival in Christmas mail."

ROMANIAN DICTATOR IN BERLIN

Gen. Ion Antonescu Arrives In German Capital for Talks With Hitler Which Are Expected to Result In That Nation Joining The "European Bloc Against Britain;" Bulgaria and Slovakia Expected to be Next

LENGTHY DISCUSSION AT THE CHANCELLERY

Berlin, Nov. 22.—(P)—Rumania's premier and foreign minister arrived today and immediately were received by Adolf Hitler for talks expected to lead to Rumanian adherence to the Rome-Berlin-Tokyo axis. The Rumanians, General Ion Antonescu and Prime Constantin Scurza, engaged in lengthy conversations with the chieftain at the chancellery, where they were accorded military honors by a Nazi guard before proceeding to Hitler's private quarters, the official DNE news agency announced. Hitler's talks with Gen. Antonescu lasted three and a half hours, informed sources said. At 6:30 p. m. (11:30 a. m. E.S.T.), the Rumanian dictator left the Reich chancellery accompanied by his chief of protocol and returned to Bellevue Castle. The Hotel Adlon will be the scene tonight of a brilliant reception for Antonescu and his party, given by Nazi Foreign Minister Joachim von Ribbentrop. It was taken for granted Rumania would join the anti-British totalitarian bloc, as Hungary did Wednesday at Vienna, Bulgaria and Slovakia, little remnant of Nazi-dissolved Czechoslovakia, are expected to follow suit soon. (In the Rumanian capital, the Bucharest Tageblatt printed a dispatch from its Berlin correspondent quoting authorized German sources as saying that the Axis alliance implied that "passive consent" is given for the passage of German troops through any signatory country if the necessity should arise. The newspaper expressed the opinion that Rumania soon would become a signatory. (In Sofia, German-Bulgarian conferences were concluded when Franz von Papen, German ambassador to Turkey, departed by air for his post at Ankara after talking last night with Bulgarian Premier Bogdan Philoff and Foreign Minister Ivan Popoff. The German envoy did not see King Boris, who conferred last Sunday with Hitler.) The wide scope of the Rumanians' talks in Berlin was indicated by the size of the delegation accompanying Antonescu and Scurza. Included in the party were Labor Minister Vasile Iancu, commercial and military officials. Prior to the conference with Hitler, the Rumanians were received briefly by German Foreign Minister Joachim von Ribbentrop, who accompanied them to see the Nazi chieftain. The Rumanians will leave Berlin Sunday morning; President Joseph Tiso and Premier Bela Tuka of Slovakia are expected in Berlin the same day. Bulgarian statesmen probably will confer with German diplomats in some German city Monday or Tuesday. IN CORRY HOSPITAL

Harold O. Lund, of R. D. 1, Youngsville, was admitted to Corry Hospital at 12:05 a. m. yesterday for treatment of injuries sustained in an automobile accident late Wednesday night. Lund sustained a laceration on the back of his head when he lost control of his car and it struck a tree on the curve near the state fish hatchery, west of Corry on the Roosevelt Highway.

Two Warren county men, who volunteered for a year's military training under the national selective service act, will leave here next Wednesday morning for Pittsburgh, where they will be inducted into the nation's armed forces. They will then be sent to Fort George Meade, Md., to begin their training.

Neither of the county's first two men to be sent to the army is from Warren borough. As previously announced, Local Board No. 1 has selected Joseph Blanchard Rodgers, of R. D. 1, who was the first of several volunteers in the territory served by that board.

It was announced this morning that William Roman, of R. D. 2, Pittsfield, the first of two volunteers in the district of Local Board No. 2, has been selected by that board for military training.

Neither of those who will go to camp next week would have been called for some time. Rodgers' order number was 1827, while Roman's was 589.

Drafted Johnny may never get his gun in the nation's peacetime training for military service—if he's better at fixing automobiles, for instance, says an Associated Press dispatch from Harrisburg today.

The state's first contingent of 770, made up mostly of volunteers who supersede draftees, will leave for Fort Meade and a year's training next Monday, Tuesday, Wednesday and Friday.

The first thing that happens to them in camp is "classification," in which past occupations and aptitudes are considered. They may be assigned to a clerical post, mechanical job or preparing the camp's food, one recruiting officer pointed out.

It may be some time—or never—that a rifle is handed to the conscript, this officer suggested. And if he does get a gun it may be an automatic or a machine gun, not a shoulder rifle.

Once inducted at one of the state's five stations, at Philadelphia, Pittsburgh, Harrisburg, Altoona and Wilkes-Barre, the prospective soldier will leave in a special car attached to regular trains, for Fort Meade, where he is to be received.

As little luggage as possible should be taken along—maybe some towels, some underwear and (Turn to Page Eleven)

Afternoon and evening sessions will be held at the First Methodist church. A banquet will be served at six o'clock at the Y. W. C. A. and will feature color movies of the famous first World Christian Youth Conference at Amsterdam, Holland, in 1938.

The evening session at eight o'clock, which is open to the general public, will be the highlight of the institute. Miss Emily S. Parker, of Parents Plans for War Children, Inc., will speak on "The Church and the Present World Situation."

The afternoon session opens at 2:30 o'clock with Franklin R. Hoff presiding. The leaders will include Edward H. Bonsall, Jr., of Philadelphia, director of young people's work of the Pennsylvania State Council of Christian Education; Lee J. Gable, director of leadership education of the state council; Arthur R. Rodmer, of Harrisburg, director of adult work in the council, and Mrs. Paul Keyser, of Ridgway, leader of children's work.

The group conferences during the afternoon will be presided over by H. G. Eaton, Miss Hulda Angerman, Miss Edith Chamberlain and Mrs. Robert Carlson. Ralph E. Shires will preside at the evening session. The entire institute will be under the direction of Rev. Bonsall.

The Rev. C. D. Dibble, of Youngsville, will be toastmaster at the banquet at the Y. W. C. A. Those who have not made reservations for this dinner are requested to do so by calling the Y. W. C. A. at once.

The institute has been in preparation since June under the auspices of a joint committee of the Warren County Ministerial Association, the Y. W. C. A., Y. M. C. A. and lay leaders representing the several communities of the county.

According to those in charge the institute is expected to be the most important gathering of its kind ever held by Sunday schools of the county.

The Warren Public Library, An Expanding Community Service

Warren's public library has just closed one of the most active Book Week celebrations it has ever experienced. According to members of the staff over one hundred new borrowers took out cards for the first time last week.

With increased activity come many questions about the library's service and its history. This information is now available through an excellent and very concise pamphlet which answers most of the questions an interested citizen might ask. A copy of which has just been received.

Several hundred copies of The Warren Public Library, An Expanding Community Service, are being placed in the mail this week. Anyone who is interested is invited to ask for a copy at the circulating desk.

For over one hundred years there has been organized library service in this community; but not since 1920 has there been any published account of the library's activities. The thumb-nail sketch of its history will answer many of the questions asked by citizens and frequent visitors who stop in attracted by the building.

Much of the statistical material for the current year previously appeared in The Times-Mirror when the librarian's report was published last July. It is worth repeating, however, that this past year the library had the largest circulation in its history. The figures of 169,681 was an increase of 8,055 over the previous year. Another comparison should be a matter of some local pride. In many communities the library is used by only ten per cent to twenty-five per cent of the total population. In Warren over 55 percent of the citizens are registered borrowers.

"The public library is eager to reach even further into the community acquainting a larger public with its services and possibilities," one of the members of the efficient office force states, "with new services and needs come the urgency of a larger and more varied book collection. There is enclosed with the pamphlet a card giving anyone who wishes the opportunity to contribute to the library's book fund. New members are welcomed in the Library Association which now has a membership of 162."

EXTORTIONIST JAILED
Pittsburgh, Nov. 22—(A)—Found guilty of attempting extortion, Mrs. Julia Trombetta, 55, of Dravosburg, was sentenced to six months in jail and her former maid, Marie Raiser, of Glassport, was placed on probation for two years.

The women were charged with demanding \$5,000 from Mr. and Mrs. John Pergossi, of Glassport, under threat of harming the couple's children. A federal jury recommended mercy for both defendants.

County Agent's News
WINTER FRESHENING COWS OFTEN NEED SPECIAL CARE
Cows which are to freshen during early winter often become thin in the fall. County Agent O. C. Tritt reminds, Late fall pastures may look good but because of lack of nutrients or because the cows do not eat so much grass in the fall as in the summer they seem to lose flesh more rapidly. The dry period and the fitting of these cows for freshening are doubly important, according to Mr. Tritt. He recommends allowing the cows to stand dry for eight weeks and giving them enough feed to put them in good flesh by freshening time.

Any good fitting ration may be used or one can be mixed by using 100 pounds each of ground corn, ground oats, and wheat bran and about 30 pounds of soybean oil meal. Salt may be added at the rate of 1 pound to 100 pounds of feed. If the hay is not of good quality, increase the soybean oil meal to 75 pounds and steamed bone meal may be added at the rate of 1 to 2 pounds per 100 pounds of feed.

Four to six pounds of the grain mixture twice a day should be enough, says Mr. Tritt. About two weeks before freshening, it is advisable to remove the ground corn and add a little oats. A day or two before freshening, remove the grain entirely and feed four quarts of wheat bran per feed. While it is best to limit the corn silage to 15 pounds a day, a cow may have all the hay she can eat. Some dairymen have found it beneficial not to feed corn silage at all during the last four weeks of the dry period to cows of high production or to cows that have a tendency to cake udders at freshening time. When corn silage is removed from the ration in the latter part of the dry period, roots of wet beet pulp should be fed in its place.

The fitting of a cow for milk production is just as important as preparing a field for a crop. If a cow freshens thin it is impossible for that cow to produce as much milk as she should, owing to the drain of nutrients from her system.

"No fool me, Arrow is for shooting bear!"

EARLY GIFT BUYING

Very many sensible people are already buying Christmas gifts, and they are being encouraged in this activity in a big way by Warren merchants who are offering some excellent inducements to early shoppers. Some of the wise folks have kept their eyes open all through the year for suitable purchases for gifts.

People usually have a rather definite idea of the things they want to buy for Christmas. If they wait until a short time before the holiday, they may not be able to find those particular things. Some times the particular kind of thing they want has been so popular it is sold out when they get around to inquire about it.

People get the best results if they start in at an early date to collect those presents. By so doing they avoid crowds, they can shop more comfortably, and they make conditions far better in the retail stores, among other things saving the store people from fatigue and exhaustion.

Shoppers will find Warren merchants well equipped to provide for every need, even at this early date.

ON AVOIDING THE FLU

The Public Health Service in Washington is watching sharply a rising curve on the nation's influenza chart. New cases are being reported at a rate 13 per cent higher than average. Officials say there is no cause for national alarm but that the situation calls for close observance, particularly during this month and next, usually the epidemic-indicator period. In the 1928-29 epidemic, the curve of new cases rose almost vertically in November.

The Health Service suggests the following precautions as a basis for home treatment of a flu patient when a doctor is not available:

Drink water freely. Stay on a liquid diet during the first few days and go on soft food about the fourth day. Gradually return to normal diet.

Do not use cathartics: enemas are better than laxatives.

Place all nasal and bronchial secretions in disposable tissues.

You may take a warm bath at the onset of attack to relieve back, head and limb pains but a warm bed and warm drink afterward are essential. Excessive sweating is dangerous.

Do not use medicines unless prescribed by a physician.

General protective measures recommended for the individual are as follows:

1. Avoid needless contact with others. Walking to and from work, if practicable, is good exercise and keeps one from overcrowded street cars and buses.
2. Avoid chilling, but take advantage of as much open air and sunshine as you can.
3. Keep up your health by using plenty of clean water internally and externally; by eating clean wholesome food, and by sleeping at least 7 hours out of each 24.
4. Avoid persons who are coughing, sneezing or sniffing. Do not cough or sneeze yourself without using a handkerchief.

According to reports, all that is needed to provide lovers of ice skating a good rink in Clarendon is favorable weather—and that, according to predictions, is on the way.

Anyhow we have something on people in 32 other states in that we can still look forward to a Thanksgiving holiday this year.

FLEMING ASSERTS 40-HOUR WEEK IS ADEQUATE TO MEET NEEDS OF DEFENSE

Washington, Nov. 22.—Alfred P. Sloan's recent suggestion that the six-day week should supplant the five-day week in American industry as soon as "the slack of unemployment has been taken up" scarcely caused the raising of an eyebrow in Washington. And though the General Motors chairman was advancing his idea as a measure to speed up defense production, Col. Philip B. Fleming, head of the government wage hour division declares flatly that neither the National Defense Commission nor the American business man has given any indication that the 40-hour week is slowing up the defense program.

"I'm a soldier and I'm primarily interested in national defense," says Col. Fleming. "If I saw any reason to suspect that this law was a handicap to our defense efforts I'd be the first one to go to Congress and ask for a change. But I don't."

Last July Col. Fleming wrote President Roosevelt that he wanted to be informed at once if the 40-hour week was slowing up defense production anywhere. The President, gave the letter wide publicity, but only one complaint has come in—from a small concern which complained that it couldn't get enough machine tool men.

Far more important than lengthening the work week, the colonel thinks, is training the unskilled unemployed for skilled jobs. He points out that the wage-hour law is amply flexible to make this easy.

"We can step in on a plant-expansion basis and give employers certificates for hiring apprentices and learners, at less than the minimum wage if necessary, at any time that it's advisable," he says.

"We have a long way to go before we even absorb the backlog of unemployed skilled workers, to say nothing of the unskilled. Aside from that consideration, there's a question whether an increase in the work week increases productivity anyway. Just what the optimum is in any specific field I confess that I don't know. Industry generally has gone to the 40-hour week because it's the most productive.

"In defense industries that are on a production line basis, where a man performs a routine operation over and over, I should say that even 40 hours is probably too long."

In general, Col. Fleming believes the wage-hour law is coming to be accepted as a permanent feature of the American industrial landscape.

"I think in the last year or so we've developed a consciousness among both employers and labor that the law is being enforced," he says. "Because that is true, business is helping to enforce the law. We've had a lot of help from trade associations. Many of them are going right to bat, reprinting our publications and sending them out to their members to help them comply with the law.

"Our industry-wide drives are doing a great deal of good. At first we were only able to handle complaints, and we weren't doing a very good job even of that. Now with an increased staff we're clearing up the complaints and

STORIES IN STAMPS

"Last Issues" Offer Wide Philatelic Field

COLLECTING "last issues" of nations disappearing from the map of the world is becoming an important phase of philately. Above is the last issue of Austria, picturing roses and signs of the zodiac. The stamp was issued for Christmas greetings in 1937, three months before Hitler marched into the country.

Czechoslovakia's last stamp was the symbol of peace, issued to mark 20 years of independence. Poland ended its stamps with the Polish Legion issue, picturing Marshal Pilsudski reviewing troops.

Danzig, Latvia, Lithuania, Estonia have joined the list. Fate of the Lowlands countries in western Europe is as yet undecided. It is possible that other nations may disappear. Changes in Africa and Asia are probable.

Even in the western hemisphere, U. S. control of former British islands may cause philatelic revisions.

NEWSPAPER CLIPPING RECALLS DEDICATION OF WARREN COUNTY COURT HOUSE 64 YEARS AGO

The following account of the dedication of the Warren county court house December 3, 1877, almost 64 years ago, not only makes interesting reading at this time, but will doubtless be preserved as a valuable historical document because of the vast amount of information it contains regarding the early days of the borough and county. The clipping is the property of Judge D. U. Arild, who loaned it to the Times-Mirror.

Monday was a red letter day in the Shire town of Warren county. There was no hunting on the outer walls, no martial music floating on the air, and yet there was a pride in every man's look and step as if it were a privilege to have been born or live in Warren. The great event of the day was the dedication of the new Court House, for which ground was broken in May, 1876, and the corner-stone was laid on July 4th, of the same year. The new edifice is certainly a model of architectural design, and for adaptability to official uses is quite unsurpassed. The State Board of Charities not long since, in their annual tour through the Commonwealth, paid a visit to the building and pronounced it the most complete and finished it had been their lot to see.

It is located on or near the site of the old Court House, on the corner of High and Market streets, fronting to the south. The style of the structure is of the modern Italian renaissance. The outline of the building is broken by a projection of eight feet; the height is two stories, and over the main part springs the dome, on which rests the lantern containing the clock and bell, surmounted by the heroic figure of Justice, with her scales and sword. The approach to the main entrance is by a flight of stone steps, on either side of which are two lofty lamp pillars. At the main entrance leading to the corridor of the first floor are two archways with stone pillars. The edifice is of pressed brick with stone trimmings, the dimensions being 72 feet wide by 122 feet long. The basement is 9 feet in height; the first floor 14 feet, and the second story 24 feet in the clear in the court and audience room, and the entire height from the ground to the top of the statue 120 feet. The cornice, dome and statue are of galvanized iron. The first and second floors are supported by heavy columns on iron girders; the halls and corridors are laid with white marble tiles with dark borders. The vestibule is of generous dimensions, and the corridors and staircases are of ample width. On the first floor are located the offices of the Commissioners, Treasurer, Sheriff, Recorder and Prothonotary. The offices of these officials are a set square, with private offices and fire-proof vaults attached. The court room, on the second floor, is 56 feet wide, 72 feet long and 24 feet high. On this floor are apartments for the judges, attorneys, grand and petit juries, witnesses, the ladies having a separate reception room by themselves. The court room has a seating capacity of 400, the seats rising from the bar to the rear by easy gradations. There are two jury panels on either side of the court room and the judge's throne. The furniture for the use of the court, the clerk of the courts, the witnesses and the members are the bar stools, the walnut massive and elegant. The aisles are covered with cocoa matting and the rest with carpeting. The audience room is lighted from the ceiling by an eight-foot reflector with 64 burners. The means of heating is direct and indirect, and the ventilation from floor and ceiling perfect. The first story is finished in hard wood, the second story is pine grained in black walnut and oak, and the inner shutters are black walnut. The staircases are of iron with solid black walnut balustrades, and the newel posts are ornamented with elegant bronze statuettes. All the door and window trimmings are dark bronze. The foundation stone are from the native hills, and the masonry are of Ohio stone. The building is heated by steam, furnished by Humeach boilers, connecting by a system of pipes with all the registers in the building, while ventilating ducts from all

The Warren County Court House as it appeared when it was completed in December, 1877.

the rooms connect with a large ventilating shaft, conveying away the foul air from each floor. The only ornament in the building is the portrait of Henry R. Rouse, the philanthropist who gave the bulk of his princely fortune to the poor and highway funds of Warren county. It represents him in a standing posture with his thumb caught in the arm-hole of his vest, which was a favorite pose with him while living. His countenance is one of great frankness and nobility of expression, and indicates the subject to be in the prime and pride of early manhood.

The whole exterior is imposing in effect of graceful outlines and harmonious proportions, and the interior, as will be seen from the description we have given, combines all the modern comforts and improvements. The entire cost of the building does not much exceed \$100,000. The work was performed under the direction of the County Commissioners R. E. Wheelock, Sugar Creek; J. E. Jennings, Tidoute; and Myron Dunham, Enterprise. The legal counsel of the Commissioners was W. D. Brown, Esq., of Warren. The Architect was W. E. Beebe, of Buffalo, and the official Superintendent of Construction was J. P. Marston, of Warren. The brick work was done by Mr. Hathaway, the slating by Mr. Humphrey, of Erie, and the cornice, etc., by Mr. Morris, of Meadville. With the exception of these specific contracts the work was done by the day. The heating apparatus and ventilators were furnished by Firmschach & Hart, and Bill Howard, of Buffalo. The gas fixtures came from the store of Beecher & Copeland, of Warren. The clock was made to order by Howard & Co., of New York, and cost \$800. The bell, which weighs 1,600 pounds and cost \$300, was manufactured by Blimner & Co., of Cincinnati.

The dedicatory exercises were of a highly interesting and impressive description. The Court, Members of the Bar, Officers of the Court and invited guests met at Roscoe Hall at 2 o'clock p. m., and proceeded to the Court House in the following order:

Marshal and Aids.
Two Tipstaves.
President Judge.
Associate Judges.
Clerk of the C. P. Clerk of the O. C. Sheriff. The District Attorney. Invited Guests, except Attorneys. Members of the Bar in Warren county in the order of their admission.
At the Court House the following programme was observed:
Singing by Warren Musical Association.
Prayer by Rev. H. S. Gelz.
Address in behalf of County Commissioners by Hon. W. D. Brown.
Response by the President Judge, Hon. L. D. Wetmore.
Addresses by Hon. R. Brown and Hon. S. P. Johnson.
Robert Dennison, Marshal. D. I. Ball and O. F. Hoffman, Aids.

The court house was crowded with spectators, among whom were Hon. G. W. Schofield, Warren's most distinguished citizen, who was obliged to decline to take part in the exercises in consequence of ill health, and the venerable Thomas Stith, lawyer, Brown and Grosby, of Corry; ex-Mayor Mitchell and F. B. Guthrie, Esq., of Titusville, and W. B. Benedict and W. J. Booth, of Enterprise.

The address of W. D. Brown, Esq., one of the leading lawyers of Western Pennsylvania, gave a financial history of the undertaking, the means by which it had been accomplished, with a graceful tribute to the memory of the lamented Rouse, and a dedication of this temple to the high purpose of public and private justice. His speech was marked by precision and clearness of statement, the chief excellence of legal composition. His Honor Judge Wetmore, in accepting the gift, spoke in detail of the various requirements and uses of the public offices, justifying the erection of such a building for the benefit and security of the citizens and taxpayers. Hon. Russell Brown followed with a discourse on the mutual relations, rights and duties of courts and lawyers to each other and the public at large, the fruit of his ripe and varied experience. Judge Johnson concluded the exercises with an extended address, historical and reminiscent of the courts of the county, enriched with anecdote, enlivened by humorous sallies, weighty with moral reflections and full of paternal counsel and admonition, which were well received and coming from the Senator member of the Warren county bar. He also read a reminiscent letter written by Judge Hazeltine, of Jamestown, who was admitted to the Warren county bar in 1819. After singing by the choir, the audience dispersed. In the evening a public reception was held, which was largely attended.

Warren is one of the most prosperous and beautiful towns in the State. Its population is now about 3,000. When incorporated in 1832, it was only 358. The first male child born in Warren, Mr. John H. King, is still living. The lumber business of the Allegheny and its tributaries first gave it commercial importance; has always constituted its principal trade, and during the war raised many of its citizens to affluence. In 1801 the first raft descended the Allegheny to Pittsburgh, and in 1830 the first steamboat came up to Warren, a distance of 150 miles, and soon after made a trip to Olean, 44 miles further up the river. The first river bridge was put up in 1840, being the first bridge between Olean and Franklin in 1850 the Philadelphia & Erie road was opened for traffic between Warren and Erie, in 1864 the Warren & Franklin was finished, and in 1871 the Dunkirk, Allegheny Valley & Pittsburgh Railroad gave Warren direct communication with the Oil Region. The same year a magnificent suspension bridge was built. Among its county officers we find that W. B. Benedict, of Enterprise, was County Treasurer in 1863 and 1864. Mr. J. F. McPherson held the office of Register and Recorder for three terms. Judge Schofield was a member of the Assembly from Warren in '51. Mr. E. Cowan, editor of the Mail, has been County Treasurer, and also a member of the Assembly. Several citizens of Titusville have been members of the Warren county bar—F. B. Guthrie, admitted in 1859; Joseph A. Neil in 1861, and David McKelvey in 1862. The earliest Judge of Warren county was Jesse Moore, in 1819. Alexander McCalmont, of Franklin, deceased, sat on the bench in 1839, and Gaylord Church, of Meadville, in 1843. Russell Brown in 1860, S. P. Johnson in 1861. L. D. Wetmore, the present Presiding Judge, was elected in 1871. The bar of Warren now numbers twenty members. The dedication of the new Court House marks an epoch in its judicial and forensic annals. If space permits we will present in to-morrow's issue some extracts from the leading addresses.

Visitors at Headquarters of Red Cross See Workers Keeping Busy

Visitors at local Red Cross headquarters in the basement of Metzger-Wright store, are impressed with the urgency of the work, the intense activity of those already engaged in it, and the abundance of new materials recently received. The work room is occupied by volunteer workers, some sewing and some cutting the material before it is taken out for sewing by various groups of women in churches, and in women's organizations of many kinds in Warren and throughout the county.

Mrs. Raymond Steber, in charge of the organization of this work, says that the demand for material by these groups of sewers and knitters is so great that more workers are needed immediately for service in the downtown work room. The call is both for experienced workers and cutters, and for inexperienced volunteers who can be useful in cutting patches, basting, preparing coverlets, etc. There is a place for every one who is willing to help in this gigantic humanitarian service of the American Red Cross.

In view of the holiday, there is a special schedule announced for next week: The work room at Metzger-Wright's will be open only on Monday, Tuesday and Friday. But thereafter it will be open every day, Monday through Friday, from one to five o'clock. In addition to materials for sewing, yarn for sweaters also is obtainable at headquarters.

The cutting supervisor is Mrs. Hugh R. Logan; sewing supervisor, Mrs. Everett Clark; knitting supervisor, Mrs. Robert Kinkaid.

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Eleanor Holm says she will never swim again professionally. The wife of Billy Rose had a dream the other night that may have influenced her decision. In it she was awakened by her maid, who said, "Your bath is ready." Still dreaming, Eleanor replied, "I am never going to get into water again."

Well, we bet a necktie Eleanor changes her mind. The most sensational gal in the nation's swim pools loves the roar of the crowd too much to ignore it for good. Ever since she was a kid she has been riding the headlines. Once she was married to an orchestra leader. And once she was banned from swimming in the Olympics on a silly charge of "drinking champagne."

On the west coast, in Europe, in the east, in private pools and in broad public streams, the streamlined Mrs. Billy Rose has defeated most competitors who have challenged her. Ten years ago I heard Jack Dempsey say, "Boy, I saw a girl swim in Los Angeles last week, and I swear to heaven I never saw anything near her equal." That was Eleanor.

ABOUT a year ago Miss Holm was in the headlines again. Her engagement and marriage to Billy Rose, an old headline stealing champ himself, was a national event. Billy's adventure with the water-baby spectacle at the New York World's Fair was one of the few things that made real money there. Eleanor was its queen.

Now, suddenly, Mrs. Rose announces "all that is behind me." Billy grins and nods approval. But Billy can remain quiet and out of the limelight for only about twenty minutes at a time. That's all. And Eleanor gets restless after about eighteen minutes. "Honestly, really I'm through," says Eleanor. "Wanna bet?"

AFTER nearly being run down by a roadhog, Elaine Bassett shook her fist and screamed after him: "It's men like you the army needs—to drive TANKS."

This reminds me of the time Katharine Hepburn slipped off a curb and was nearly run over by a careening cab. A cop yelled to her: "They don't care what they do. They don't OWN the cabs."

There just seems to be no end to "Tobacco Road." After more than five years as a play, it has now gone into production as a movie. And only last week a new edition of the novel, with illustrations, turned up on the book stands.

Marjorie Lawrence wears dried bark anklets when she sings Salome. They were presented to her by admiring natives in Samoa.

THE MAGIC OF MAKEUP

AP Feature Service

Voice alone doesn't make an opera star, nor does dramatic ability. Makeup and costume are necessary, too, to bring the colorful stories of the opera stage to life. Here Karin Branzell, "Met" contralto, transforms herself into Azucena, the gypsy crone in Il Trovatore. First she applies cold cream as a base for greasepaint and

to make it easier to remove the makeup later. Next she models a hooked nose from a wax preparation. Then she darkens her eyebrows and marks wrinkles on her face and forehead. With suntan powder over the makeup, she dons a scraggly wig. Finally, a bandana over the wig and a shawl over her shoulders, she is ready for the stage.

Ariels Drill Daily For Tilt With Jackets Here Sunday

Jamestown Keyed Up For Season's Climax Against Old Rivals

If today's weather holds out for two more days, the curtain will be lowered on the local grid season at Russell Field Sunday when the Red Jackets, champions of western Pennsylvania, clash with their old rivals, the Jamestown Ariels, at 2:30 o'clock.

Managers of both teams have stated that the game will be played unless extremely bad weather conditions prevail. Today's sun and wind went a long way toward drying up the playing surface.

Determined to upset the dope bucket and score their first victory over a local independent team since early in 1935 when they topped the HyVis Oils, 6-0, the Ariels have been working out indoors and out nearly every day since the game was called. Coach Lou De-

BARKER FAVORS CORNELL TO TIP PENN TOMORROW

BY HERB BARKER
Associated Press Sports Editor
New York, Nov. 22.—(A.P.)—Just one more trip down the narrow and treacherous football guessing trail:

Wisconsin - Minnesota: Who knows where the lightning might strike next? It could happen here, particularly with so dangerous an offensive as the Badgers involved. Still, one solid vote for Minnesota to close its season unbeaten and untied.

Cornell-Penn: The Big Red apparently has fallen far off its early-season form, but perhaps the "delayed" Dartmouth defeat will turn out to be one of those well-known blessings in disguise. Cornell's defense seems much tighter than Penn's. Frank Reagan probably will be the best back on the field but we'll take Cornell to win the ball game.

Boston College-Auburn: The Plasmans come north with a formidable scoring machine and a great back in Dick McGowan. It may be close but the choice is Boston College.

Yale-Harvard: Both have come a long way since their early season pastings. This battle for Harvard is based on the belief that the Crimson has come farther and has the greater reserve strength.

Tennessee-Kentucky: Another traditional affair with all the uncertainty that implies. Nevertheless it seems the best Kentucky can hope for is to hold the score to respectable proportions. Tennessee.

Ohio State-Michigan: Dangerous spot for Tommy Harmon and Michigan and no shattering surprise either way. Ohio State has played well all season and might turn the trick. A none-too-confident vote for Michigan.

Northwestern - Notre Dame: Northwestern seldom has much luck against Notre Dame, but this is once when it seems the Wildcats have a definite edge, especially in the line. Northwestern.

Mississippi State - Mississippi: One of the toughest of them all to figure. Out of the hat, one vote for Hovious, Hapes and Mississippi.

Baylor-Southern Methodist: A battle royal, but we'll stick with S. M. U.

Oklahoma - Temple: Probably close. Oklahoma.

Nebraska-Iowa State: The cyclones that make trouble but hardly enough to upset the probable Big Six champions, Nebraska.

U. C. L. A.-Washington: The Bruins finally found the scoring and winning combination last week in Washington, but leave your cash in the safe.

Princeton-Army: The Cadets probably be thinking too much about next week's Navy game to worry about this one. Princeton.

Pitt-Penn State: Pitt has developed surprisingly well. Probably we'll regret it, but we'll take a flier on Pitt to snap State's undefeated string.

Brown-Dartmouth: A doubtful vote for Dartmouth.

Columbia-Colgate: The coin decides. Columbia.

TWO MORE TILTS Varsity "S" To Be ARE PLAYED BY Awarded To Fifteen "Y" LOOP TEAMS Wolverine Gridders

Olson and Bjers came through in the last period to snatch a 23-25 decision from the Phalanx in one of last night's "Y" League warmups as Jack Kifer scored 11 points.

In the Class "B" practice tilt the Times-Mirror won again, taking the Colts 33-25 with Reynolds (not R. W.) leading the way.

Sheffield, Nov. 22.—At a meeting of the 1940 Wolverine football squad Coach Drummond announced that varsity letters will be awarded to 15 players and Student Manager Joe Fitzgerald.

Players named to receive the insignias, actual presentation of which will occur at a later date, are Captain Lloyd Albaugh, Paul Pochatko, Pete Otto, George Olson, Carl Anderson, John Sorvelli, Dan Burns, Jim McGuire, John Lloyd and Leroy Brush, all seniors; Don Lyle, Marvin Schmiedlin, Carl Heisei and Jerry Sorvelli, all juniors; and Andy Pochatko, a sophomore.

It is the third award won by Albaugh and the second by Paul Pochatko. Otto, Olson, Anderson, John Sorvelli, McGuire, Heisei and Lloyd.

The returning lettermen will meet at a later date to elect the captain of the 1941 team.

The boys tendered Coach Drummond a pleasant surprise at the outset of yesterday's meeting when, as a mark of their esteem and affection, they presented him a copy of Dean Hill's book, "Football Through the Years."

Hope was high at the start of the campaign that the club, with 9 lettermen on the roster, would win at least four of its games and give the local school its first non-losing season since 1937. The team failed, however, to come up to expectations, a failure partly due to the fact that injuries and scholastic difficulties all season

long kept one or more key players out of the lineup, and the result was another drab season in which the only bright spot was the win over Youngsville.

The Orange and Black scored 86 points, 48 of them in the Waterford game, and gave up 127 to their opponents. 13 touchdowns and 8 extra points represent the locals' point-total, while contained in the 127 points surrendered by them are 19 touchdowns, 11 extra points and a safety.

Paul Pochatko topped the individual scoring for the Wolverines. He notched 53 points on 5 touchdowns and 3 conversions. Olson scored 3 touchdowns and converted once; John Sorvelli, 2 six-pointers and 1 extra point; Lyle, 2 touchdowns; Clark, a touchdown; Anderson, 2 extra points, and Heisei, 1 extra point.

Besides those already mentioned, players who saw action in the campaign were Lowell Blake, Mike Steffan, Paul Wargo, Beryl Burlingame, Harold McClellan, Harry Lloyd and John Egan.

The season record:

Sheet	Op.
48	Waterford
0	Kane
0	Ridgway
7	P. Allegany
7	Johnsburg
6	St. Marys
6	Weedville

OLD NEMESIS IS JENKINS' FOE IN GARDEN TONIGHT

New York, Nov. 22.—(A.P.)—Texas Lou Jenkins, who's a stubborn kind of guy, is going to try to prove tonight that lightning can't strike twice in the same place—and particularly on his chin.

He puts his world lightweight championship on the line in Madison Square Garden against the bid of the choir boy from Chicago and Gary, Ind., Pete Lello, with a hoped-for crowd of about 15,000 sitting in.

Pete flattened Lew in Chicago about 20 months ago, and regardless of what Lew says about how it happened, Pete really put the old zinger on him. The referee counted the full ten that night, and could just as well have counted thirty or forty.

Since then the Sweetwater Swatter has won the 135-pound

TWO MATCHES SHOT IN REVOLVER LOOP

The Air Corps picked up six points in this week's Warren Revolver League matches, topping the Navy in all four divisions and splitting even with the Marines last night, after winning the first two points. Wooley was high in the first match with 254, while Johnny Schuler hit 271 for the Marines in the second.

EAGLES TO HONOR G-MAN DAVE O'BRIEN

Philadelphia, Nov. 22.—(A.P.)—Little Dave O'Brien, who will retire from his football career this season, will be honored here Sunday at the Eagles-Pittsburgh game.

It will be O'Brien's last Philadelphia appearance as a player for the Eagles.

O'Brien, whose application to join the Federal Bureau of Investigation has been accepted, will receive a three-day leave from his job to attend the game.

"Davey" O'Brien, the greatest player of all time, during from pro football to the country's pre-famous in the heart of a home—a living inspiration to the youth in America.

Sports Round-up

BY EDDIE BRIETZ
Cincinnati, Nov. 22.—His close friends here say one of the first moves Jimmy Wilson will make as manager of the Cubs will be to get Hugh Mulcahy from the Phillies. This is just one man's opinion, but personally we think Mulcahy has a good chance of upsetting Boston College tomorrow. (See odds below.) The folks out this way don't expect Kentucky to beat Tennessee, but they figure Kentucky will keep the score down—like North Carolina vs. Duke, for instance. Fritz Zivic has been offered four opponents by Jack Laken at Baltimore, but no acceptance yet. Michigan State has replaced Nebraska as the leading candidate for the spot left vacant in the Big Ten when Chicago went for Tom Thumb golf at Stagg Field.

Today's Guess Star.
Burke Davis, Charlotte News: "I may sound like something out of the dope bucket, myself, but my weakness of the week is 24 votes for underdog Auburn over unbeaten Boston College. The bowl-bounding Eagles face the toughest confederate charge since Pickett's charge at Gettysburg. (Furn to Page Fourteen)

Short, Short Stories.
Well, Referee "Red" Friesell might have missed one. So what? Can't a guy make a mistake these days? "Red" still is a tops referee in this book. Glad to report Frank Grayson, veteran baseball writer of the Cincinnati Times-Star, is beating pneumonia. Banks McFadden is getting \$7,000 from the Dodgers which is pretty good for a freshman in pro football. We are saying no coach for Red Burns the prize fighter, but it does look like the guy is getting the run around from somebody. Lieut. Col. Vernon Pritchard, former Army All-American, is heading a mission to the war zone—military observers. We suppose Davey O'Brien's first act as a G-man will be to try to see what is wrong with the Philadelphia Eagles.

Beg Pardon.
A few nights ago we chronicled how Bernie Bierman, Clark Shaughnessy and one or two others have come from Louisiana schools to make a name for themselves as coaches. We plumb forgot about Horton Norton, who is riding high, wide and handsome at Texas A and M and Bo McMill-

COPS ARE AMBUSHED ON QUAKER CAMPUS

Philadelphia, Nov. 22.—(A.P.)—Fifty Row "ambushed" 50 policemen who dispersed hundreds of Yelling, football-mad University of Pennsylvania students last night.

Not-very-fresh produce, firecrackers, eggs (ripe) and water, rained from fraternity house windows as the cops chased students in the street. One officer was out by a milk bottle.

The impromptu "pep meeting" was for Saturday's meeting with Cornell. Seven street cars were stalled and automobile traffic jammed before police arrived.

STOCKHOLDERS MAY REORGANIZE PHILS

Philadelphia, Nov. 22.—(A.P.)—A group of minority stockholders, imbued with "civic pride," went forward today with their fight to reorganize the National League's cellar champs, the Phillies.

The time has come, when something must be done to make the club a pennant contender," said William H. Harman, vice president of the Baldwin Locomotive Works and leader of the minority.

A stockholders meeting is scheduled for November 26, and Harman asserted that "I intend to ask that new capital be brought into the club. Whether by the sale of more stock or by some other method, I don't care. I am very anxious that the club reach a position where it can pay off its debts without having to sell star players."

The Phils recently sold Kirby Higbe, star pitcher, to Brooklyn, for \$100,000 and three players.

Herman owns 60 of the club's 5,000 shares. The majority is controlled by Gerald Nugent, club president, and his wife.

Edward, Duke of Windsor, is an amateur magician, and is particularly adept at sleight-of-hand.

FOOTBALL SCORES

State College, Nov. 22.—(A.P.)—Hundreds of students gave Penn State Nittany Lions a thunderous send-off today for the Lions' 40th annual football game with the University of Pittsburgh.

A victory over the traditional rivals would give the Lions their first undefeated season since 1921. Coach Bob Higgins said he would start his strongest lineup.

KILLED LOADING GUN
Mifflintown, Nov. 22.—(A.P.)—A bullet through the forehead killed Russell Edward Reynolds in the kitchen of his home at Arch Rock, near here. Dr. B. F. Long, deputy coroner, said the death was accidental, and deduced the 26-year-old brickyard laborer was loading his rifle when it discharged. Reynolds and his wife and four-year-old daughter were to have moved into a new home tomorrow.

Over Fifty at Men's Meeting at Sheffield

Jr. Beryl Burlingame and Sherwood Henry.

The review board consisted of William Dalton, district commissioner; Glen Belknap, chairman of the Troop 36 committee; Clair Fitzgerald, chairman of the Troop 35 committee; and Bruce Smith, member of the district committee. Chester Sprandle, scoutmaster of Troop 36, announced at the close of last night's session that another review will be held in mid-December.

HIT BY CAR

Otto Beckman, about 55, local woodsman, escaped with minor bruises when he was struck and knocked down by a car while attempting to cross South Main street, near Center, here early last evening. The car which struck him was operated by S. M. Parkhurst, of Erie, who said he had no chance to avoid hitting the local man. Beckman, taken to a local physician's office, was discharged after it had been ascertained he had sustained no serious injury.

BOOTH FESTIVAL

The annual fall Booth Festival at Ruth M. Smith Children's Home will be held Saturday afternoon. In connection with the event the Epworth League of Sheffield has designated the day Donation Day and, starting yesterday and continuing through today, is collecting canned goods and other foods, clothing, bedding, toilet articles, and other commodities which will be presented to the Home Saturday.

BEAR SEASON ENDS

Five p. m. yesterday brought to an end the 1940 four-day open season on bear in Pennsylvania. No additional kills in the Sheffield area were reported, but the kill hereabout for the four days was considered fairly high. Game Protector Robert Lichtenberger, of Oil City, who made Sheffield his headquarters during the four days, estimated that 15 of the animals were killed within a 5 or 6 mile radius of the community.

The total kill in Warren county, however, was far short of that recorded last year, Lichtenberger said.

So far as the game protector was able to learn, only one illegal kill occurred in this area. That one, with a 50-lb. cub the victim, occurred near Henry's Mills. The carcass was brought to the Peterson market here and was dressed out and skinned by Gilbert Peterson. The game protector took charge of the hide and the meat is being distributed to the needy.

INJURED IN COLLISION

Injured Wednesday evening when the car in which she and her husband were returning from Sheffield to their home in Saybrook rammed into a car which stopped in front of them suddenly, Mrs. John Slocum was taken to the Kane Community hospital for treatment of her injuries, most serious of which is a damaged kneecap.

Important Base Captured After Eleven Days of Bitter Fighting

(From Page One)
(For the past several days they had reported its fall as imminent, declaring that Greek forces were pursuing retreating Italian forces.)

A government spokesman in Athens last night predicted that the Italian invaders might be driven completely from Greek soil by today.

The communiqué also reported the withdrawal of Fascist positions along the Egyptian coast by British warships and a British aerial bombardment of the Italian fortified island of Lero in the Dodecanese group.

The naval bombardment, it said, part of which fell in the area east of Sidi Barrani, caused no casualties or damage and most of the bombs aimed "wildly" at Lero fell into the sea harmlessly.

The High Command reported widespread British attacks in north Africa, against Salum, Bardia, Tobruk and Benghazi, and in east Africa against Massawa, Hargeisa and Asmara, but said there were only a few casualties and "light" damage.

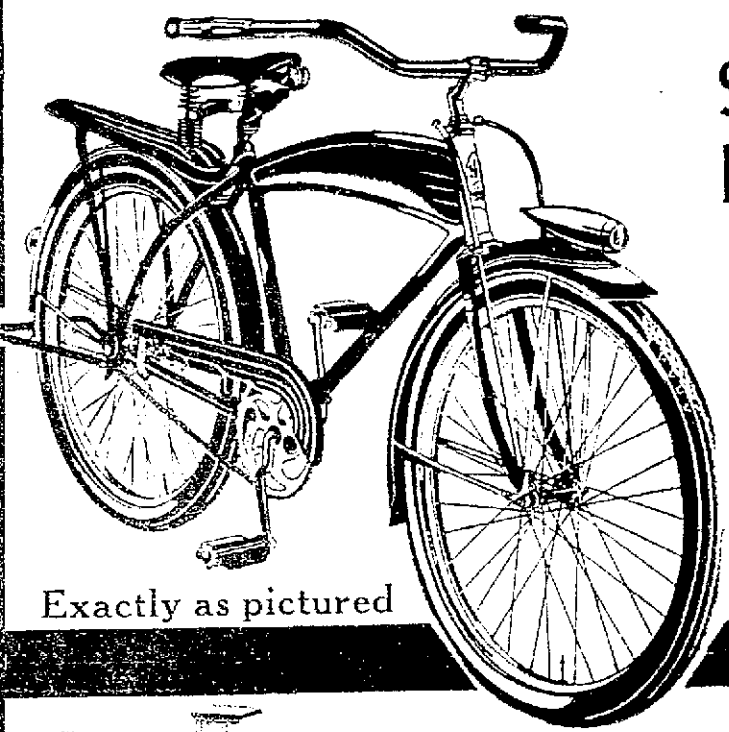

Italian air forces, it said, bombed fortifications and a railroad at Matruh, in Egypt, and struck a ship and airfields in raids in East Africa.

HONOR ROLL

Fielding	214

Smith	211
Willard	230
Kinkaid	239

Hullman's lost three points to the Beckley team last night and lost the "Long Knight" division leadership to the Kintners, who scored three points over Darling's Jewelry. Hullman's dropped into third with the New Process, which split even with the Times-Mirror going into second. Harvey and

Carey and Cochran's Bangers divided, the prescription men holding last place in the first division. By taking two points, Denry's team doubled their number of wins for the season. Bob Kinkaid and Frank Willard divided high game honors with 230 and the councilman's 559 was good for high total. Note: In the Wednesday night match between the Hoagvals and the Times square, a two-point split should have been recorded.

Rich's Atlantic Station dropped three to the Sherwood Refinery in the Commercial circuit while the National Forge was copping a trio from the County News, giving the Forgers an increased margin over the White Flashers who last week were within a game of the leaders. Olson & Egers took four

from the Newell Press, took over third place and shoved the County News into fourth place, two games out of second division and ahead of the West Ridge lads who lost four to the O. K. Service. The sweep gave the O. K. team a tie with the transportation experts for fifth position. Smith chalked up high single of 239 and Zibb's 576 was best collection of pins in three games.

AUTO CLIMAX

Gettysburg, Nov. 22 (P)—On her way to take a driver's license test, Miss Ruth Anna Frounfelter of Littlestown ended up, cut and bruised, with the car nosed against a tree after smashing through a fence. A companion, Miss Grace Stonestifer, suffered a broken wrist and other injuries.

MEET NEEDS IN WINTER STORAGE OF VEGETABLES

A large number of vegetables require cold temperature to keep properly in winter storage, but they vary somewhat in humidity requirements, according to County Agent O. C. Tritt. Vegetables which require a moist condition of the atmosphere, or 95 per cent humidity, include cabbage, Brussels sprouts, kale, celery, Chinese cabbage, endive, and escarole, beets, carrots, winter radishes, rutabagas, rutabagas, and salsify require medium-moist conditions, or 90 per cent relative humidity. Onions do best in a medium-dry atmosphere of 85 per cent humidity. Free circulation of air through slatted crates helps them to keep well in storage. Winter

melons may be placed under hay or straw in a medium-dry or 85 per cent humidity.

Tidioute

Mrs. Russell spent the weekend in Tidioute guest of Mrs. Kapp. Mr. and Mrs. Frank Brocklehurst left Saturday for St. Petersburg, Fla., and will spend the winter there. Mr. and Mrs. F. A. Shaw accompanied by Mrs. Nellie Shirey left Thursday by motor for Manning, W. Va., where the latter will spend the winter with her brother and niece, Miss Marian Shaw. Mr. and Mrs. George Fuelhart of Uniontown were guests over the weekend of Mrs. Anna Fuelhart. Mrs. Rex Biekarek and children

of Warren were guests of Mr. and Mrs. Charles Grottenberger on Saturday.

Bob Stull of Jeannette is spending a three days vacation with his aunt, Mrs. Ida Tipper. Mrs. L. H. Schwab and Mrs. W. H. Grottenberger spent Thursday in Oil City.

PARKING METER DISPUTE

Honesdale, Nov. 22 (P)—One hundred and fifty parking meters have been installed on downtown streets, but the remainder of the 300 ordered must await court action. The "Citizens' Protective Association" obtained a temporary injunction against completion on the ground that the city council purchased the meters without asking for competitive bids.
